

THE **NEW** CLOUD BASED FUEL MANAGEMENT SYSTEM FROM

Site 1 → Multiple Dispensers

Site 2 → Single Dispenser

FOR ANY SIZE FLEET

Monitor unlimited dispensers across multiple geographical sites in a single portal.

REAL-TIME DATA

Once refuelling is completed, date, driver, vehicle, mileage & QTY is sent straight to the cloud*.

RECOGNISED HARDWARE

Uses the industry known, Italian quality Piusi dispensers, familiar throughout the market.

NO UNAUTHORISED USE

Manager can remotely enable/disable driver access to the pump to control who can dispense fuel.

NO SOFTWARE INSTALLATION

Cloud based web portal - all you need is a log in! It doesn't need reinstalling when PC is replaced.

REMOTE MONITORING

Manager can access reports from their PC, tablet or smartphone, whenever, wherever they are!

NO ONGOING FEES

Unlike other systems there are no monthly or annual cloud hosting fees to budget for.

*Real time only in areas where Wi-Fi or mobile network is available. Otherwise, data will be synchronised when network becomes accessible.
