Dual Fluid

Enhanced Design Features

Unique Design Standard

The AceCube Pro dual fluid Tank comes complete with galvanized hippo lid, hatch lid and galvanized stacking corners. The innovative design also allows the primary hippo lid to open up to a component ports plate with access to an extra large equipment compartment area. The ACP-DF range has been fitted with secondary plate as standard opening. The secondary hatch opening allows the fitting of an Ad-blue / DEF insert tank and dispensing kit.

Transportable & Portable

The AceCube Pro Dual Fluid tank is an IBC Bunded Fuel Storage tank range and comes in the following sizes ACP-DF-680L/140L to ACP-DF-1750L/140L & ACP-DF-2570L/280L. The tanks come with UN31A/Y certifications adhering to ADR and (DOT) Department of transport regulations, guaranteeing them for safe and secure transportation on all major roadways when full of fluids. The ACP-DF-4070L/280L & ACP-DF-4820L/280L are stationary tanks.

Maintenance & Environment

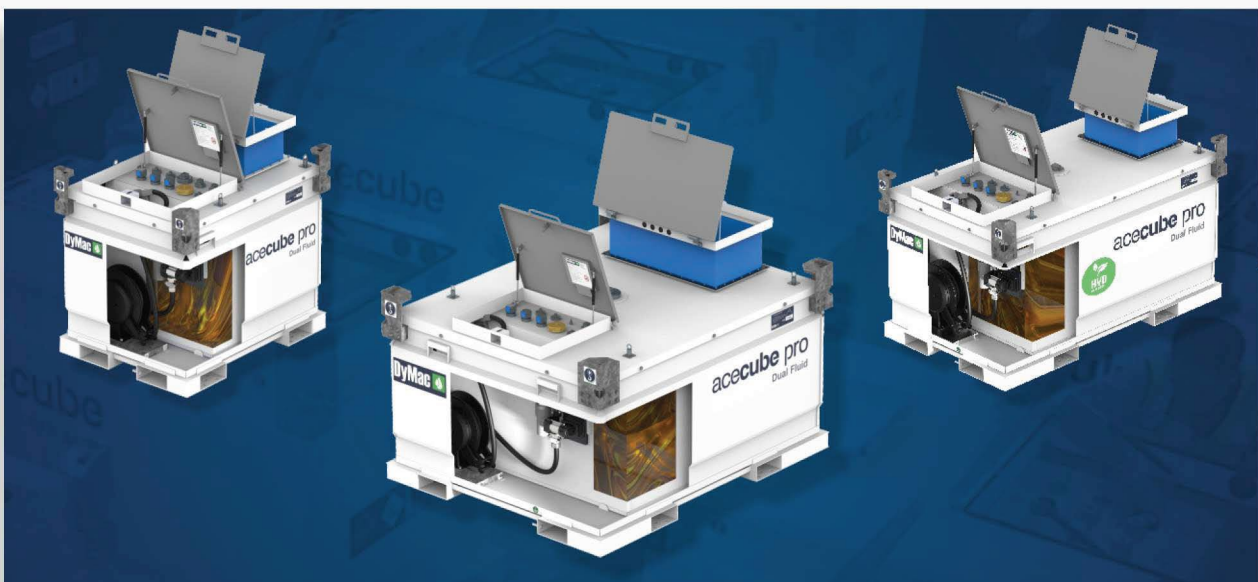

To ensure efficient and effective cleaning, maintenance and inspection procedures. The AceCube Pro Dual Fluid tank design has an ingenious two tier component design. This flexible design also ensures a minimal amount of downtime when going through end of life refurbishment and thus increases over long term ROI.

Dispensing & Accessibility

The AceCube Pro Dual Fluid Tank comes equipped with a spacious equipment chamber which engages a bespoke universal bracket plate system that can support various retractable hose reels, along with a variety of electric pumps, dispensing kits and rotary hand pumps.

Stacking & Racking

All AceCube Pro Dual Fluid tank designs are "Stackable and Rackable" into 40ft shipping containers for world wide transports. They are also stackable 2 high when empty and 1 high when full.

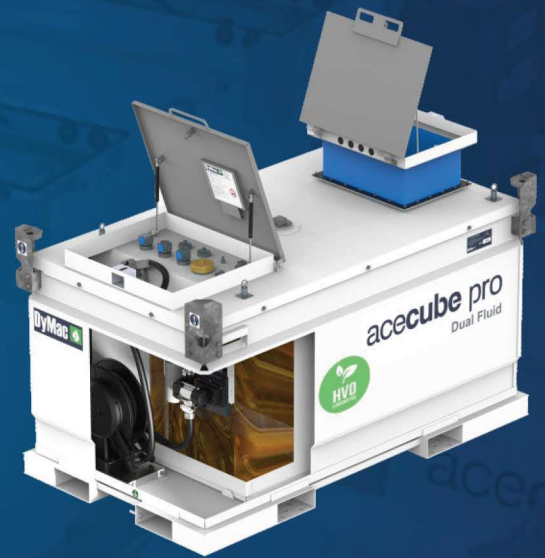

Design Innovation

Take a look inside

The AceCube Pro Dual Fluid tank range boasts a bi-directional forklift pocket design and comes with internal baffle plates for protection against sloshing when transporting. The range has a stacking corners that double up as lifting lugs providing total ease of maneuverability. There are conveniently positioned ports & fittings underneath the primary hatch lid that also opens up to an extra-large equipment compartment area.

It also comprises a secondary opening at the rear to allow the fitting of a 140L Ad-blue/DEF Poly Plastic insert HPDE tank. Thus, providing a unique dual fluid tank design.

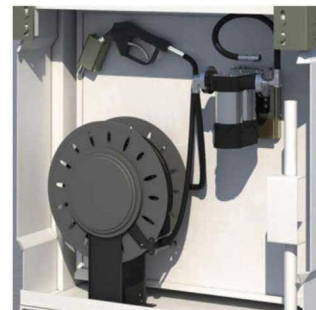

Designed For Diesel Dispensing

Can accommodate up to 10M or 40ft retractable hose reel mounted in the bundled equipment compartment.

Automatic dispensing nozzle with 4m or 8ft hose and various electric pump size options.

Combined 10M/32ft retractable hose reel option with Automatic Dispensing nozzle.

Designed for Ad-blue DEF Dispensing

Multiple ports can be connect up to three pieces of machinery at one time and allow dispensing simultaneously.

280L/ 140L Poly Plastic inner tank surrounded in a carbon steel sump protection tank.

12V Ad/blue dispensing pump with delivery nozzle and hose.
