Kingspan BlueMaster® PRO Specification Sheet

The Kingspan BlueMaster range offers a robust and convenient on site storage solution. The range has been specifically designed for the secure storage, dispensing, management and protection of AdBlue®.

All BlueMaster tanks are double skinned for environmental protection and to safeguard against contamination. Kingspan BlueMaster tanks ensure your AdBlue® remains pure for its lifetime in the tank protecting your assets and the environment. This is accomplished in three ways:

Closed Fluid Path

Manufacturers of AdBlue® agree that the closed controlled systems, like those found in Kingspan BlueMaster tanks, rigorously maintain AdBlue® purity.

Manufacturing and Material Compliance

All BlueMaster tanks conform to the highest manufacturing and material compliance standards (EN ISO 9001:2015) to deal with the chemical characteristics of AdBlue®.

Expertise & Knowledge

Kingspan has over 40 years' expert experience in the engineering and manufacturing of liquid storage solutions. Over the past 10 years we have worked with AdBlue® producers to create one of the safest and most environmentally responsible storage solutions available.

Quality

Quality product and quality service ensure absolute peace of mind. With Kingspan your AdBlue® purity and your vehicles are protected.

Return on Investment

Onsite bulk storage means you, as an AdBlue® user, benefit from better logistical planning and fleet owners can purchase larger volumes – saving everyone time and money.

Service

Exceptional customer service is our top priority which is why we offer full technical and after-sales support, a trustworthy 10 year guarantee*.

* 1 year guarantee on parts.
