

Drum Store - HD2D

Manufactured from steel plate which is pressed for additional strength this model has a fully seam welded sump, which fully complies with all the current UK regulations relating to sump capacities. Above the sump are cradles to accommodate two horizontal 205ltr drums and the unit has two lockable, hinged doors and a lift up lid (fitted with a gas strut to aid opening and closing). The underside of the sump is fitted with forklift transport hoops to aid movement by fork lift truck and to keep the underside of the sump off the ground and reduce the risk of corrosion. Prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 2 x 205ltr drums.

Chargeable option:

- Vents

Please notify us at the time of ordering if you require this option. This unit will be delivered by an HGV, possibly articulated therefore please ensure that a vehicle of this type can access your premises before ordering and advise us accordingly. You will require an appropriate size/capacity fork lift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any offloading.
