## DIESEL AND ADBLUE®

# AGILIS IS AN INVESTMENT THAT PAYS OFF!

# AGILIS IS THE **IDEAL SYSTEM** FOR SMALL AND MEDIUM-SIZED ENTERPRISES

An effective system for small and medium enterprises that use their own tanks for refuelling their work vehicles with diesel

- Offers a wide range of solutions in terms of applications, dispenser type and voltage
- Authorises access to fuel simply and automatically, by means of a PIN or yellow key
- Manages up to 250 users per dispenser
- Monitors tank level (virtual tanks only)

- Records all dispensing data
- Easy to connect to your computer in the way that suits you best: PW14, PW Mobile, PW Lan, PW Wifi, Manager Key
- Exports full, custom reports
- Works both with and without dedicated software

## BENEFITS

Prevents losses and unauthorised withdrawals

Prevents machine downtimes caused by fuel shortages

Optimises reporting, thereby freeing up company resources

Provides long service-life due to its rugged construction, high quality and ease of use

PIUSI is Europe's leading manufacturer of fluid management systems (for diesel, petrol and AdBlue®) and one of the sector's major players at the international level. Founded in 1953, the company operates in 135 countries worldwide, covering global markets with certified, high-quality products made in Italy.

# AGILIS: THE 4-PRONGED APPROACH TO FLUID MANAGEMENT

Whether in farming, haulage, construction or any other sector, small and medium enterprises that work with diesel vehicles and machinery have a very diverse range of needs. For anyone equipped with tanks on their farmyard, courtyard or hardstanding, the AGILIS range, divided into four main product families, is an effective way of customising their fluid management system.

## CUBE
**Handy and versatile**

CUBE is a diesel dispenser for private use, which optimises fuel transfer, dispensing and monitoring. Everything you need is incorporated into a modern, compact cube, which is easy to install on tanks, walls, or a customized pedestal.

- Self-priming vane pump with bypass
- Maximum flow rate 72 L/min
- A60 automatic nozzle with swivel connection
- 1", 4m dispensing hose
- Nozzle-holder with start and stop micro-switch
- Electronic display, keypad and memory
- IP55

## SELF SERVICE
**Safe and durable**

This dispenser includes all the functions of the CUBE version, plus all the added safety of having a particulate filter, water separator and built-in nozzle contact.

- Self-priming vane pump with bypass
- Flow rate 90 L/min or 70 L/min
- A120/A80 automatic nozzle with swivel connection
- 1", 4m dispensing hose
- Electronic display, keypad and memory
- Particulate filter and water separator
- Built-in nozzle contact
- IP55

## SELF SERVICE AdBlue®
**Keep-fit for catalysers**

The AdBlue® dispenser developed by PIUSI is robust and reliable. By offering high efficiency (β200), the AdBlue®-specific 3D particulate filter preserves the quality of the product it dispenses.

- Self-priming electric diaphragm pump
- Flow rate 34 L/min
- SB325_X patented automatic nozzle with break-away spout
- AdBlue®-specific 3D filter
- 3/4", 6m dispensing hose

## MCBOX
**A control unit with a new array of smart features**

This electronic panel adapts to a full range of applications and can be used to control any type of pump AC/DC and pulse out meter, plus nozzle contact management.

- User-friendly display and keypad
- Multi-user
- Can be used with any type of fluid

# SSM AGILIS: HIGHER PERFORMANCE EVERY TIME YOU FILL UP

AGILIS products can be used on a stand-alone basis, but pairing them with SSM AGILIS software delivers a host of extra benefits for business people. Installed in thousands of systems worldwide and continuously developed and updated by PIUSI, this software has become the benchmark for all top-end fuel management systems, and is ideal for easy, comprehensive monitoring of fluid dispensing across your company's entire vehicle fleet.

**VIRTUAL TANK**
Monitoring of withdrawals/filling sessions and virtual tank levels

**SITE**
System configuration

**REPORT**
Special analysis and reporting tools

**AGILIS**
Custom reports designed to meet the regulatory requirements of different countries

**SETTINGS**
**SSM AGILIS**
software configuration and customisation

**Easy to install on your PC and offers a clear, user-friendly interface**
